

Dear Parents/Guardians of future Summit School Students,

We are delighted you are considering Summit School of the Poconos for your child's education. Our community is committed to preparing students to thrive as 21st century citizens. To that end, we have developed an educational experience that is a microcosm of our real world.

Imagine children spending their days at a school without rows of desks, collaborating on interesting projects in mixed-aged groups, spending time learning outside, and naturally developing social and emotional skills.

The student application is designed for parents to download and fill out electronically. Please:

- > download the document
- > save the document
- > email the document to admissions@summitschoolpoconos.org.

Once we receive it, we will be in touch to schedule an admissions interview with your family.

Sincerely,

Ileana Aledo
School Administrative Director

2018-19 School Year

How did you hear about SSP? _____

As a parent, you are considering a nontraditional education for your child at SSP. What about our model appeals to you and why do you feel your child will thrive in our environment?

What other schools have your child attended? Describe the overall experience your child had at the school, addressing aspects that were particularly successful or particularly unsuccessful.

How would you, as a parent, describe your child's personality and learning style?

As a parent, how do you feel about homework?

How involved do you prefer to be in your child's learning environment? Please elaborate.

We view our students, families, and staff as a school community and ask that our families participate in fundraising. What talents and availability would you be able to contribute to this task?

Is your child receiving or in need of any type of services or do you suspect they need services? Services could include IEPs, special education, speech therapy, counseling, and others. We have found that students who may struggle in traditional educational environments can be successful at SSP **as long as they have the support needed**. Please elaborate on your child's needs so we can begin to work together from the start, ensuring every child's success.

What other information can you share that would help us understand your child better?

Please list your child's siblings with their ages and indicate if you are applying to SSP for them as well _____

Email application to admissions@summitschoolpoconos.org
